

Key Messages

- Need for consistency between regions: forms/documents; standard interpretations; grant levels.
- Small grants: grant levels; simpler (quicker) process; delegated grants.
- Need to support LAGs to network at regional or geographic area level.
- LAGS want to see more evidence of collaboration between RDAs; to pool/share information.
- More integrated programme delivery: across all three axes rather than under separate measures.
- Need to have a clear steer about role of Local Action Groups; capacity building or programme delivery/spend.
- Need for more resource to help deliver the Leader approach.
